

OFFICE OF THE DIRECTOR OF NATIONAL INTELLIGENCE

Stacey Dixon

Director, IARPA

Intelligence Advanced Research Projects Activity

LEADING INTELLIGENCE INTEGRATION

Dr. Stacey Dixon became IARPA's fourth director in September 2018, after serving as the deputy director from January 2016 to August 2018. Before joining IARPA, Dr. Dixon served as the deputy director of the InnoVision directorate at the National Geospatial-Intelligence Agency, where she oversaw geospatial intelligence research and development. Prior to InnoVision, she served as NGA's chief of Congressional and Intergovernmental Affairs in the Office of Corporate Communications. From 2007 to 2010, she worked on the U.S. House of Representatives Permanent Select Committee on Intelligence staff, and from 2003 to 2007, for the Central Intelligence Agency, assigned to the National Reconnaissance Office's Advanced Systems and Technology directorate. Dr. Dixon holds both a doctorate and master's degree in mechanical engineering from the Georgia Institute of Technology, and a bachelor's degree in mechanical engineering from Stanford University. She was also a chemical engineering postdoctoral fellow at the University of Minnesota. Dr. Dixon is a native of the District of Columbia where she currently resides.

The Intelligence Advanced Research Projects Activity (IARPA) invests in high-risk/high-payoff research programs that have the potential to provide our nation with an overwhelming intelligence advantage over future adversaries.
